

VARSHITHA THILAK KUMAR

About Me

I am a motivated 3rd year Computer Science Engineering student specializing in Artificial Intelligence, with a strong interest in data-driven problem solving and intelligent systems. I have hands-on experience in areas like machine learning and deep learning through academic projects. I am passionate about building practical AI solutions and continuously improving my technical and analytical skills. I am eager to apply my knowledge in real-world environments and contribute to innovative AI-driven projects.

Experience

1. Automated Battery Materials Data Extraction from Scientific Literature

2025

- Built an automated pipeline using **LLMs**, PDF processing, and **SHAP-based XAI** to extract and normalize battery data (capacity, voltage, conductivity) with **~90–95%** accuracy.
- Addressed challenges in parsing unstructured PDFs and unit inconsistencies using hybrid pattern matching, LLM extraction, and standardized normalization.

2. Movie Inferno – Movie Recommendation Platform

2025

- Built a Movie Management System with **Next.js**, **Supabase**, and **TMDB API**, featuring an **AI chatbot** for recommendations; deployed on **Vercel** with real-time updates.
- Resolved Vercel deployment issues caused by environment variables by debugging logs and managing API keys via `.env` files.

3. Oil Spill Drift Forecasting using Physics-informed DL on satellite and oceanographic data.

2026

- Developed a hybrid **CNN-LSTM-attention model** with physics-based advection for spatiotemporal prediction.
- Integrated **SAR images**, **wind**, **ocean currents**, and **bathymetry** for improved accuracy.
- Addressed limited data, class imbalance, and physical consistency challenges.

4. Intern at Wezume- AI-driven HR tech platform

2026

- Built a culturefit model that fits candidates to the recruiters need based on pitch of the candidate

Certification

- Presented paper at IEEE Conference (ETIS, Trivandrum, 2024) on Time-Frequency Analysis of PQD (MATLAB); published on IEEE Xplore.
- Finalist, Cubicle Code 5.0 Hackathon (2025) by Geek Rooms with Pathway & TRAE at Microsoft, Bangalore.
- Finalist, GenAI Hackathon (Value Health Org, 2024); built GenJournals AI journaling app.
- Completed Full Stack (MERN) course at IITM Research Park.
- Completed GenAI course (Multimodal RAG) by GenAI Academy.
- Oracle CI 2025 Certified Foundations Associate.

Education

2023–2027

Amrita Vishwa Vidyapeetham
Currently pursuing 3rd Year
CGPA–**8.5**

2021–2021

Velammal Vidyalaya
12th Graduation–**87.2%**

2014 – 2018

Maharishi Vidya Mandir
10th Graduation–**93.6%**

Skills

- Critical Thinking & Problem Solving
- ML and DL
- Python
- C and C++
- DBMS (SQL)
- DSA
- Web Development

Language

English
Tamil
Hindi
Telugu
